**IMPORTANT INFORMATION.** The study plan must contain two foreign languages different from your mother tongue. One language is automatically English, because the master program is held in English. Therefore, a 9-credit exam in a language different from English and from your mother tongue is sufficient.

The choice of English as the 9-credit exam is possible only in some special conditions and it requires the choice of an exam in another language (a 9-credit exam or a 3-credit language lab).
